

March 17, 1997

To: Paddleball players, their families, "Friends of Paddleball", and the public.

From: Wally Schmidt, Paddleball Pro Shop, 311 Garfield St.

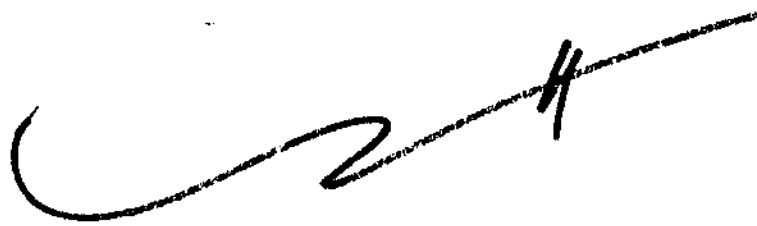

Subject: Designation of Paddleball courts as historic site.

On Monday, March 24th, at 7 PM at Hollywood City Hall, a major step will be taken to determine the future of one of the most frequently used recreational facilities provided by the City of Hollywood to its residents and tourists alike. It has been available for use for the last 64 years.

I'm referring to the Garfield Street Paddleball Courts on Hollywood Beach. A public hearing will take place at the above time and place. The subject of this meeting is to review an application that would give the paddleball courts a local designation as a historical site, thus placing the courts in a cocoon of security and safety for future generations.

I'm asking the paddleball players, their families, "Friends of Paddleball", and the public who have used this facility over the decades to attend this hearing, to witness the event, or, indeed, to speak in support of this wonderful effort by the Community Planning Division and the Historic Preservation Board.

Wally
